Living with Urban Coyotes

A collaborative effort between Milwaukee County Parks, University of Wisconsin-Madison's Urban Canid Project, and the Wisconsin Department of Natural Resources.

Why are urban coyotes important? How can we prevent conflict? What is effective management?

These are just some of the many questions that will be addressed during this educational program series hosted by the Milwaukee County Parks Department. Urban wildlife researchers from the University of Wisconsin-Madison's Urban Canid Project will discuss urban coyote ecology, human-coyote conflict and behavior modification, as well as proactive coyote management. Please join us for one of the programs listed below, no registration is required.
