

2016 PROJECTS

PACKARD NORTH SEWER & WATER

- The replacement of 100+ year old water main and sewer infrastructure on Packard Avenue between Cudahy and Lunham Avenues. Also includes storm sewer and lateral replacement for residents. Road reconstruction in 2017.

KIRKWOOD ROAD RECONSTRUCTION

- The reconstruction of Kirkwood Ave. between Morris and Grange Avenue. Poor soil conditions have led to the road deteriorating over many years.

HAZARDOUS SIDEWALK PROJECT

- Hazardous sidewalks that were marked will be replaced in the city between the blocks of Swift and Lake Drive.

BARNARD AVE. EXTENSION PROJECT

- Due to development at the former Iceport location, Barnard Avenue will be extended from Sweet Applewood Lane to Nicholson Avenue.

STORM WATER ALLEY IMPROVEMENT

- Another development at Squire & Layton requires the replacement of the alley at 3500 Layton. This project will utilize a new storm water friendly alley construction style with porous pavers down the center.

PARKING LOT & PLAZA UPGRADES

- With DNR grant money, the public parking lot at Squire and the Plaza at Layton & Packard will be reconstructed using porous pavers for storm water quality.

ASPHALT RESURFACING PROJECT

- Mill and overlay asphalt improvements in Districts 2 & 3.

IMPORTANT NOTE

Project Dates and Schedules are not finalized at this time.

LOOKING AHEAD

ADDITIONAL PROJECTS MOVING FORWARD INTO 2017 AND BEYOND:

- GRANGE STORM RELIEF
- COLLEGE LIFT STATION
- PACKARD NORTH ROAD
- NORTHEAST SANITARY
- VAN NORMAN STORM
- OVERLAY ROAD PROJECTS
- MISCELLANEOUS SEWER
