

## Healthiest Cudahy Collaboration

Community Caring for Community

## 2015 Midyear Update

### Busy and Successful Start

The Healthiest Cudahy Collaboration is now 100 members strong. We kicked off the year with our Cudahy Shining A Light on Autism and Child Development campaign and turning the city blue. The month long initiative concluded with 318 people attending Butler vs Bullying. Former Green Bay Packer, Leroy Butler shared his personal story and message on bullying with the community. A Resource Guide For Mental Health and Substance Abuse was created by our Task Force and we are happy to announce numerous agencies throughout the county have requested copies. The Firefly walk took place in June to welcome summer. The fitness fair, kids crafts, 1 or 2 mile walk and campfire at the Kelly Senior Center were enjoyed by our Cudahy community. A monthly wellness newsletter is distributed to all City of Cudahy employees. To increase child developmental screening a pilot project is underway at a local day care facility.

We were joined by 176 people at the Firefly walk

### Upcoming Events
