**Re: Cudahy Water Utility  
Service Capacity –COVID19**

**To: All**

During this unfortunate crisis people should be aware that their drinking water is safe and that the Cudahy Water Utility will continue to operate through the crisis. The Cudahy Water Utility has an emergency plan in place for emergencies whether it's a tornado, flood, major fire or pandemic. As part of the Water Utility's continuity plan, the City has several mutual resources from the Department of Public Works and adjacent Water Utilities that can provide and distribute water to serve the City of Cudahy. There is no need to purchase bottled water. Unlike the water that comes out of your faucet, the bottled water you purchased has been touched by several people before you bring it into your house.
